<ul style="list-style-type: none"> All returns sent to Raven Industries use Incoterm DDP (shipper is responsible for all U.S. entry fees). To potentially avoid duties and taxes, it is recommended that HTS code 9801.00.1012 be used for each item returned. Shipper commercial invoice should state, "U.S. product being returned for repair under warranty" and include completed U.S. Customs form 3311 - Declaration for Free Entry of Returned American Products. Include a copy of the original commercial invoice stating the USA as country of origin. If a copy of the original commercial invoice is not available, a request for a country of origin form can be made to Raven. This form also serves as a Certificate of Decontamination. Used items must be thoroughly cleaned and free of any chemical or soil residue. Non-compliance with this policy will result in complete non-consideration of warranty. Product will be disposed of and the claimant can be charged a disposal fee. U.S. Federal Regulations prohibit the shipment of contaminated material that is improperly packaged or incorrectly labeled. All material must be decontaminated prior to shipment. An MSDS (Materials Safety Data Sheet) for the last chemical used must accompany all shipments. Raven Industries, Inc. reserves the right to refuse any shipment that is not properly cleaned, decontaminated, packaged and/or labeled. - OSHA Standard 28CFR 1910.1200 "Right to Know" Law <p>To confirm compliance, check one:</p> <p><input type="checkbox"/> The undersigned certifies that the items returned under this Return Material Authorization (RMA) have never been in service and/or have not been exposed to any hazardous material or harmful substances.</p> <p><input type="checkbox"/> The undersigned certifies that the items returned under this Return Material Authorization (RMA) have been properly decontaminated and are free of residue.
