

Cruizer II™ and Cruizer II™ RTK Software Update Details

Version: 3.1.1 Demo
Release Date: 07/02/15

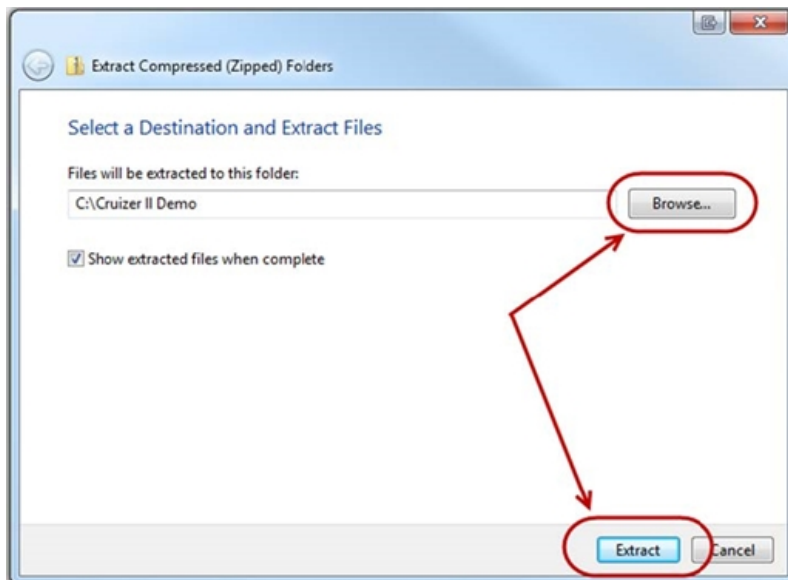

Do not load demo software onto field monitor.

Download and Installation Instructions

1. Create a folder to store the Cruizer II Demo. Example C:\Cruizer II Demo
2. Download the Cruizer windows installer program and extract all files.

3. Browse and select the previous folder created in step 1 and click extract.

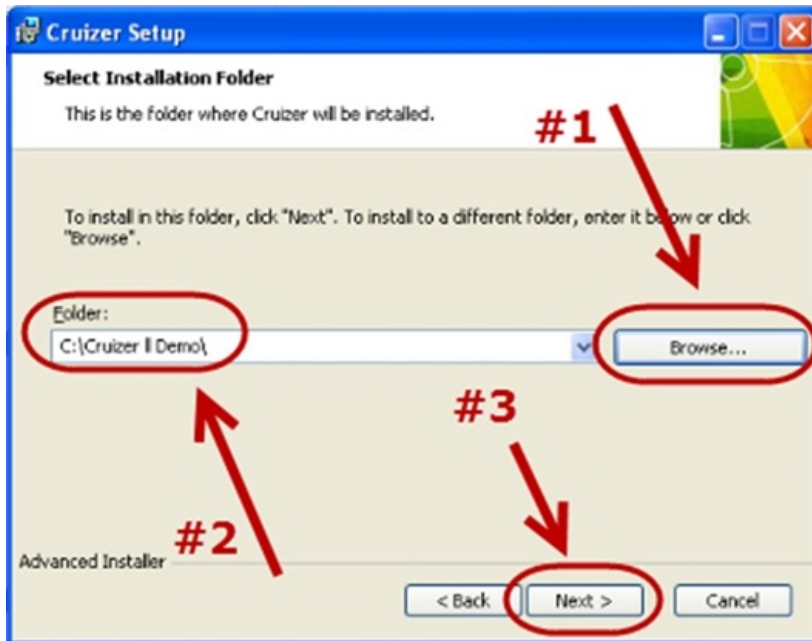

4. Find the unzipped program file and double click to run installation program.

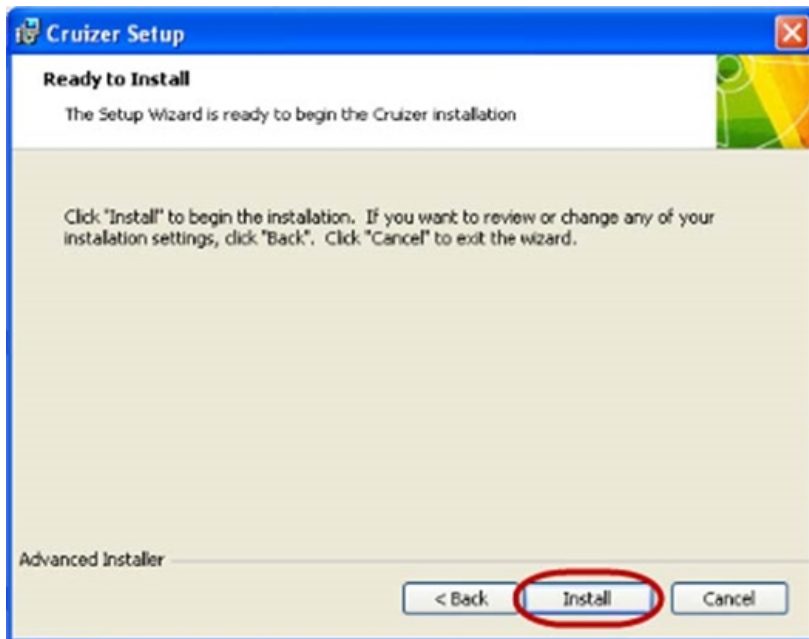

5. The following window will appear.

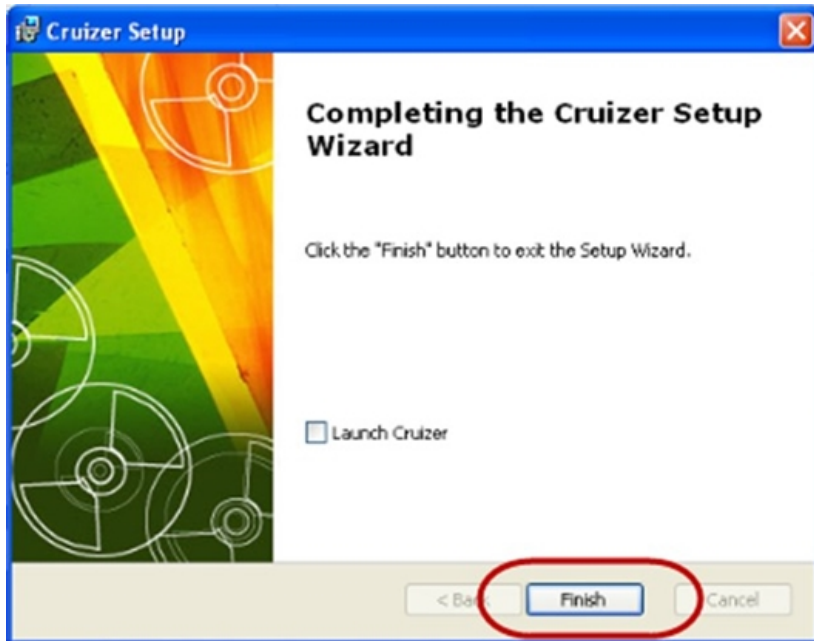

- First click the browse icon and a window will appear.
- Search for the folder created on the C drive in step 1 and select it.
- Click the next icon.

6. Select the install button. An installation screen will appear and may take several minutes.

7. When installation is complete select the finish option.

8. A shortcut on the desktop will be created automatically.
