# MULTI-SECTION CHECK VALVE ASSEMBLY

## REQUIRED TOOLS

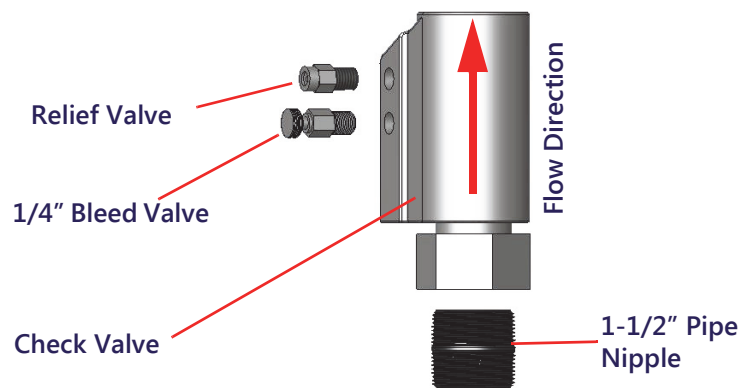

- Thread Sealant
- Wrenches

## CHECK VALVE ASSEMBLY

1. Apply PTFE thread sealant to all threaded joints.

**FIGURE 1. Multi-Section Check Valve Assembly**

---

2. Install the relief valve into the top port of the check valve.
3. Install the bleed valve into the bottom port of the check valve.

**NOTE:** When installing the 1/4" bleed valve, make sure the vent hole is not directed towards the face.
