1. Uitleg installatie RxTools v1.10.0

Na het uitvoeren van de noodzakelijke systeem update "SBG systeem update voor RxTools installatie v1.10.0.msi" kan men het programma Septentrio RxTools upgraden naar v1.10.0 of hoger!

Zonder eerst uitvoeren van deze systeem update zal de installatie van RxTools v1.10.0 vast lopen! RxTools en het USB stuurprogramma voor de AsteRx GPS-ontvanger kunnen zonder deze update niet functioneren!

Dus controleer voor installatie van RxTools v1.10.0 of deze systeem update is uitgevoerd!

1.1. Installatiebestand kopiëren naar de terminal

Kopieer het installatiebestand "**RxTools_1_10_0_Installer.exe**" naar de "**My Documents**" map op de terminal. Dit in verband met een stabielere installatie!
